**Do you want an audiophile quality amplifier that can power 6 rooms with ease?**  
Pragmatic has the answer.

This Amplifier produces big luxurious sound, yet is so efficient that it doesn't require heat sink or a ventilating fan. The small yet powerful package delivers true high fidelity performance that surpasses the sound quality of amplifiers 10 times its size and weight. At only 10 pounds and a 2 rack-unit height, this is by far the most compact and efficient amplifier in its class.

The robust design of this amplifier provides extremely clean state-of-the-art power. You will experience unexpected sound depth and musical clarity from this 12 channel powerhouse. The unit accepts any volume controlled line level input and uses a super quiet, amazingly efficient 110V AC power supply. Advanced protection circuitry guards against system damage from overload, over-temperature, or short circuits.

This amplifier is ideal for multiroom audio, bi-amped speakers and home theater systems.

**product specifications**

Continuous power:	48 Watts per channel	Freq. Response:	20 Hz to 20 KHz
Peak power:	90 Watts per channel	Power:	110V AC
Dynamic range:	> 100dB	Size:	17" x 10.5" x 4"
Signal-to-Noise:	> 100dB	Weight:	10 lbs
