**FOR IMMEDIATE RELEASE**

**PRAGMATIC LAUNCHES THE TRUE MUSIC™ 5.1 DIGITAL SYSTEM –  
A NEW AND IMPROVED PERFORMANCE WIRELESS DIGITAL AUDIO SYSTEM**

**(Santa Clara, CA, July 9, 2003)** - Pragmatic Communications Systems, Inc., innovators and leaders in wired, and wireless audio/video control and signal distribution, has started shipping new and improved TrueMusic™ 5.1 digital system. The system is a powerful wireless digital audio transmission system capable of transmitting Dolby Digital 5.1 DTS and Digital PCM data. The TrueMusic™ 5.1 digital system has applications for wireless home theatre and multi-room Digital Audio distribution

The system features a transmission range of about 300 feet, with 50,000 uV/m @ 3 meters. The system accepts coaxial digital data for transmission.

The system is available in both 902 – 928 MHz, and 2.4 GHz spectrum.

The transmitter has dimensions of 2.4" x 1.6" x 1" and weight approximately 1 oz. The receiver has the dimensions of 5.5" x 3.3 x 1" and weight approximately 5 oz.

With a two-year warranty program, Pragmatic ensures quality, affordability, simplicity, reliability, and pain-free installation for this system. Please call Pragmatic at (408) 735 0300 or email [sales@wireless-experts.com](mailto:sales@wireless-experts.com) for further inquiries, or to place orders.

Pragmatic Communications Inc., located in the heart of Silicon Valley, was founded in 1994 to provide innovative wireless solutions. Based in Santa Clara, CA., the company designs and manufactures its products in the U.S., and internationally for both professional and consumer markets.

Pragmatic, known for its proprietary CATS™ technology, provides products that are used throughout the world in demanding life-critical, educational and entertainment applications. The company's products are marketed exclusively to professional systems contractors. You can visit the company's web site [www.wireless-experts.com](http://www.wireless-experts.com)
